Claims 1-6 are presented for examination.

The remarks filed on October 30, 2008 have been received and entered.

Claims 1 and 2 are rejected under 35 U.S.C. 102 (b) as being anticipated by Hastings et al. (US 5,626,849) for the reasons set forth on page2 of the office action of April 30, 2008.

Claims 4-6 are rejected under 35 U.S.C. 102 (e) as being anticipated by Clouatre et el. (US 6,447,807) for the reasons set forth on page 3 of the office action of April 30, 2008.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the examiner has not provided any evidence that the subject has to experience any inflammation and the inflammation is always present in the body. The examiner points out that since the claims of the instant application are not drawn to the ameliorating or treating any specific type of inflammation, therefore they read on the amelioration of any types of inflammatory process in the body. The examiner attaches an article to support that inflammatory process in the body can be caused with any types of imbalance, even such imbalance can caused by the intake of certain food products. Therefore, the human boy is always dealing with certain type of inflammation which can be silent and not obvious to the eye.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
